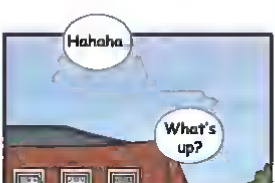
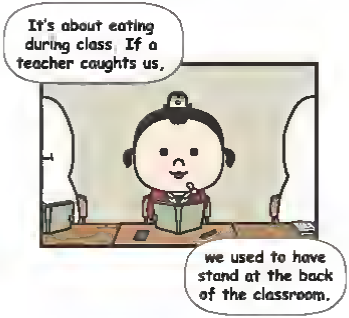
Discreetly

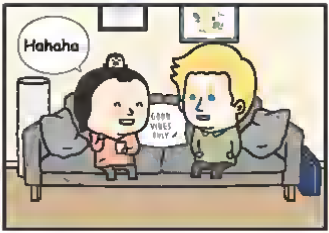


One day.

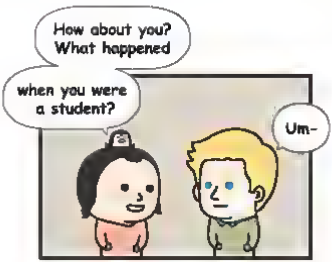
Someone wrote something that I can totally feel
What did they write?
GOOD VIBES ONLY



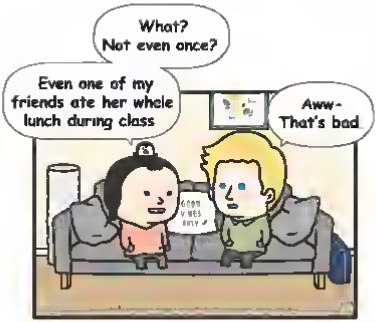
It's about eating during class. If a teacher caughts us,
we used to have stand at the back of the classroom.



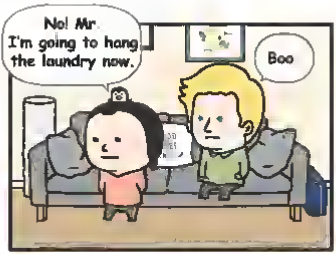
I talked about what
Korean students used to do.

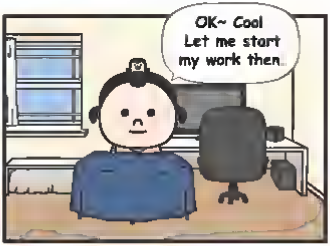


His answer was unexpected.



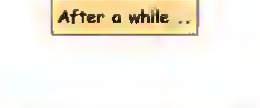
You were a bad student.
How could you eat something in the class?
... I was puzzled.
That's not my story. My friend's.
And we were only 15. Hehe.
Anyway, let me ask you something.
Can I have a chocolate bar?

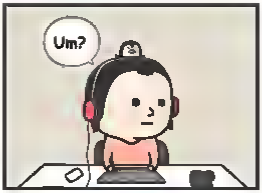




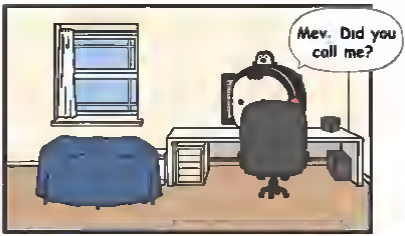
After the conversation,
we storted to do our own work.

After a while ..

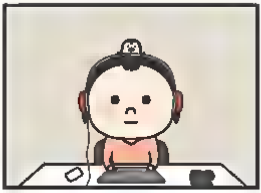


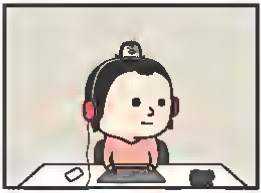


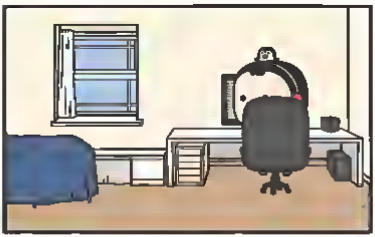
I was working very hard,
but then I heard a small noise.

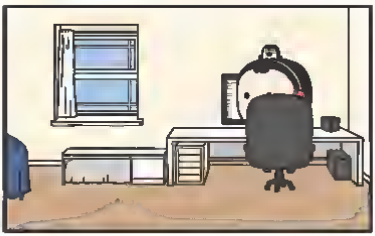


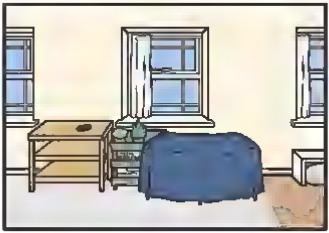
I thought I heard it wrong.
But...

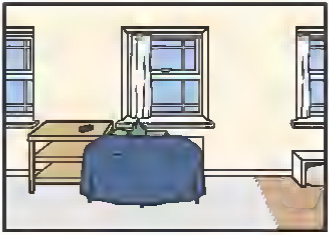






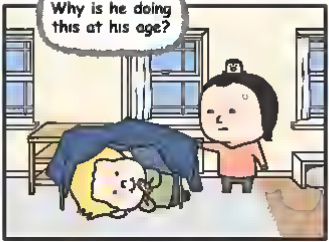






SNICKERS

I was really wondering



Why is he doing this at his age?

Hahaha
